

December 26, 2016

Honorable Michael R. Pence
Governor of Indiana
Office of the Governor
200 W. Washington Street, Room 206
Indianapolis, IN 46204

Dear Governor Pence,

We respectfully request you implement your authority as Governor of the State of Indiana and issue an Executive Order to extend the current commercial energy code before it expires on December 31st, 2016.

Without your action, Indiana will be without an energy code, which jeopardizes the health, welfare and public safety of our citizens.

We believe it is imperative to have the existing code in place for the following year to afford the regulatory process ample time to review while providing Hoosiers with protective life safety measures in the interim.

Thank you for your immediate consideration of this timely matter. We hope you will take expedient action to protect the safety and welfare of the citizens of Indiana.

Sincerely,

A handwritten signature in black ink, appearing to read "Sarah E. Kuester". The signature is fluid and cursive.

Sarah E. Kuester
Executive Director
BOMA Indianapolis
